

How will *you* benefit from joining The Extraordinaries Club?

If your mum or dad is talking to you about taking The Exam Success Formula you may be wondering, “What’s in it for me? Is this just going to be a boring waste of time or is it really going to make a difference?”

Read the bullet points below to understand what you can expect to get out of joining the club.

- **“I’m just not motivated to study”**
When you join the club one of the first things you will do is a module all about unlocking your motivation. This is really helped many other students. How to stop procrastinating is also covered. No more lack of motivation for you!
- **“I’m totally overwhelmed by how much there is to do”**
This is absolutely normal. There is a lot to do. However, students who work with me feel a huge sense of relief when I show them how to break-down what they need to learn into bite-sized chunks and how to prioritise it all. Does that sound good?
- **“I know I spend too much time on Snapchat / Instagram / Netflix / my xbox. Can you help me?”**
Yes! Again, this is completely normal. I will show you how to make sure you’re doing the right amount of work but still have your fix – within moderation, of course. You can get the grades you deserve without logging off completely.
- **Start good study habits and lose the bad ones**
You will have laid the foundation for success over the long-term by starting good study habits and getting rid of any bad ones that you might have developed rather than relying on short-term and very stressful techniques like cramming. You will be confident that your consistent effort will pay dividends in the exam hall so that you don't have to worry so much or get stressed before and during exams.

- **“I don’t know how to revise.”**

The Extraordinaries Club is the perfect place for you. I will teach you how to work out which revision techniques work for you, how to improve your exam technique and how to plan your revision so that it’s a) not so over-whelming and b) you focus on the things that will make the biggest difference to your marks.

- **“I’m not very organised.”**

I’ve got you covered! The first module inside the club is all about how to get everything organised.

- **“I don’t want to miss out on life to study for my exams.”**

I get it. You love spending time with your friends, you’re young and you want to enjoy yourself. I will show you how you can make decisions about your priorities that truly reflect what you want out of life, and how to achieve a good balance based on those priorities.

If all this sounds good, you need to join The Extraordinaries Club. Just come to www.theextraordinariesclub.com to sign-up.

About me

My name is Lucy Parsons. When I was nine years old I decided I wanted to study at Cambridge University. I went to my local state schools, who weren’t very ambitious for me, so I had to make it happen myself. In the process, I worked out a study system that earned me five A grades at A Level and I went to Cambridge to study geography. Later on, I became a geography teacher. I now teach students, like you, how to study so that you can reach your full academic potential and achieve your hopes and dreams.

If you’ve got any questions about the club, email me at lucy@lifemoreextraordinary.com.
